Good morning to you too Peter:

You beat me to it (sending a thank you - acknowledgment note) -- I was just sitting down to do the same and to also wish you a very Happy Thanksgiving!
I too look forward to sitting down and giving you the "Niagara Falls (Nickel and U, and R and Th, Pu and others) Tour," so to speak - "The Nickel Tour".. You might find it fascinating and frightening all at one-time - in it's scope and the variety of atomic activities that took place here around Western New York, and in particular, Niagara Falls.

In any event, I was wondering if you wouldn't mind sending me copies of the photos you took yesterday afternoon? I'm keeping track now of what goes out and to whom.
It's what I'm calling a accounting process and is handy in establishing a chain-of-custody also, so to speak. What I'm also hoping to establish is a means of keeping track of what documents are being used as "source" or "base" materials. So we can all be on the same-page and levels of understanding on what we are to study or seek out. It will also serve to reduce redundancy and make the best of both of our time. If you wish to send the images to my phone, that would work too. Whatever is easiest for you. My cell number is: 716-423-3449 or, to this email address.

Get in touch again Peter. I will look forward to it and our further collaborative efforts.

Best wishes again for a safe and enjoyable Holiday!

-Lou

Good Morning Lou,
Just wanted to say thank you for meeting up yesterday. I'm looking forward to sitting down with you again.
Have a good Thanksgiving!

-Peter
